

MY Chef Chef

Thanks to Ms. Venus for guiding us throughout the ISO journey.

Our company has achieved Halal and MeSTI certifications. To pursue overseas opportunities, we have planned to secure ISO 22000 certification to facilitate export activities and comply with regulatory requirements and customer expectations. We are now ISO 22000 certified and ready to commence our export activities.

Over the past three months, we have worked closely with Ms. Venus, who has consistently provided us with support and guidance in implementing food safety measures. Furthermore, she assisted us in connecting with an accredited certification body, and our audit was subsequently carried out by a professionally accredited MOH qualified auditor.

I would readily recommend VD Consultancy to food manufacturing industries looking to achieve Food Safety Management System certification as they provide practicable and reliable consultancy aligned with company needs and industry standards.

Tey Siu Boon, Managing Director
